

Android instructions:

Please email the instructors (aiti-ghana-2011@mit.edu) when you start working on this so that we know you are interested.

Setup

1. Download the appropriate android SDK from: <http://developer.android.com/sdk/index.html>.
2. Follow the setup instructions at: <http://developer.android.com/sdk/installing.html>.
 - a. During Step 4: choose Android 2.2. Most current devices come with android 2.2, and all new devices coming to Ghana will have at least android 2.2. 2.3 is still new and not widespread yet. Android 3 is intended for tablets, not phones, so don't worry about it for now.

After setup

Go through the tutorials here:

<http://developer.android.com/resources/browser.html?tag=tutorial>
